SUBJECT: CONDOMINIUM 05-12

VESTING TENTATIVE PARCEL MAP #063034

LOCATION: 1002 7th STREET

APPLICANT: HAROLD ANSCHEL
722 11TH STREET
HERMOSA BEACH, CA 90254

REQUEST: TO ALLOW A TWO-UNIT DETACHED CONDOMINIUM PROJECT

Recommendations

To approve the Conditional Use Permit, Precise Development Plan, and Vesting Tentative Parcel Map subject to conditions as contained in the attached Resolution.

Background

PROJECT INFORMATION:

GENERAL PLAN:	Medium Density Residential
ZONING:	R-2B
LOT SIZE:	4,793 Square Feet
EXISTING USE:	Single Family Residence
PROPOSED SQUARE FOOTAGE:	Front Unit: 2,818 square feet Rear Unit: 2,963 square feet
PARKING REQUIRED:	4 Standard 1 Guest
PARKING PROVIDED:	4 Standard in garages 1 Guest
ENVIRONMENTAL DETERMINATION:	Categorically Exempt

The subject site is located on the south side of 7th Street between Pacific Coast Highway and Prospect Avenue. The project is Categorically Exempt from the requirement for an environmental assessment, pursuant to the California Environmental Quality Act Guidelines, Section 15303(b) and 15315 with the finding that the project is in an area with available services.

Analysis

The project consists of two detached units each containing a basement with two stories above. Each unit contains four bedrooms, three and a half bathrooms, and a roof deck. The primary living area is on the second floor with the basement and first floor containing the bedrooms. The building is designed in a traditional style, with a cedar shingle and stone veneer siding, a clay tile roof and glass guardrails for all decks.

The project complies with all requirements of the Zoning Ordinance. The building is designed to comply with the 30' maximum height limit for the R-2B zone, as shown on the roof plan and

elevation drawings. The lot coverage calculates to be 61%, which is below the maximum allowable lot coverage of 65%. All required yards are provided, and the front yard setback of 10-feet exceeds the minimum of 5-feet in order to be consistent with prevailing setbacks on this portion of 7th Street. Required parking is provided in the basement level of each unit with shared driveway access from 7th Street with a shared guest-parking stall at the end of the driveway. No on-street parking will be lost, as a comparable sized driveway will replace the existing driveway.

Sufficient open space is provided for both units. Each unit contains a deck with over 100 square feet directly accessible to second story primary living areas, with the balance of open space provided on roof decks, and excess yard areas in the front and rear of the property.

The project meets all the requirements of the Condominium Ordinance. Storage areas are provided on the ground floor and comply with the requirement of 200 cubic feet of storage space per unit. The plan provides for landscaping in the front and side yards, including two 36-inch box white birch trees.

It should also be noted that the basement levels of each unit, which contain a bedroom adjacent to the garages, provide full bathrooms, and separate exterior access is provided to the bedroom in the rear unit. Staff is seeking direction as to whether the Commission wants to include a condition of approval to limit the bathroom to ¾ bath (i.e. shower only) and/or prohibit separate exterior access to these bedrooms.

Planning staff transmitted a memo to both the Building Division of the Community Development Department and the Public Works Department for review of the subject project. The Building Division provided comments that will not significantly affect the project design. No comments have been provided from the Public Works Department at this time, although staff has confirmed with the Public Works Department that its acceptable for the applicant to use the encroachment area (the excess Right-of-Way width of 7th Street) for the driveway to down-slope from the sidewalk.
