

April 30, 2003

Honorable Mayor and Members of  
The Hermosa Beach City Council

Regular Meeting of  
May 13, 2003

**APPROVE PURCHASE OF PARKS IRRIGATION CONTROLLER HARDWARE**

**Recommendation:**

It is recommended that the City Council approve the purchase of equipment to complete citywide central controller system for park irrigation in the amount of \$21,757.91 from Hydro-Scape of San Diego, California.

**Summary:**

This item approves the purchase of communication hardware that will connect all City parks to the central irrigation controller system being installed as part of Project No. CIP 95-507 Valley Park improvements. This is a sole source purchase, which guarantees compatibility with the Valley Park controller. Cost includes hardware for each of the following sites:

- Clark Stadium
- Community Center
- Edith Rodaway Park
- Greenwood Park
- Greenbelt – 3 controllers
- Noble Park
- South Park
- Parking Structure
- Pier Plaza

It is anticipated that this system will pay for itself within two years as water usage is reduced. This system is in use in many cities throughout the state of California, including the City of Inglewood, the City of Redondo Beach, and the City of Los Angeles.

**Fiscal Impact:**

Funding for the purchase of the controller hardware for park irrigation is available in account 301-8507-4201 and would be completion of the irrigation system started as part of CIP 95-507 Valley Park Improvements.

Respectfully submitted,

Concur:
