Recommendation:

It is recommended that City Council:

2. Instruct the City Clerk to post Notice Inviting Sealed Bids for said project.

Summary:

Project No. CIP 02-185 Street Improvements 5th Street from Pacific Coast Highway to Ardmore Avenue and from Pacific Coast Highway to Prospect Ave is approved for Fiscal Year 2003-04. Staff requests that City Council approve the plans, specifications and advertising for bids.

The plans, specifications and estimates for these projects have been approved by the Director of Public Works and are available in the Department of Public Works for review.

Background:

In July 2002, City Council approved the Professional Services Agreement between the City and DMR Team Inc. for engineering and design services.

It had originally been approved as two individual projects; CIP 02-187 and CIP 02-185, which are now combined into one. On May 28, 2003, the Public Works Commission and the residents reviewed the design issues and scope of work. From this meeting, the Commission, after evaluating the residents' comments and input, recommended the scope of work to Staff.

The proposed street work consists of cold milling existing concrete pavement and capping with asphaltic concrete, removal of deteriorated curb, construction of curb and gutter sidewalk, curb access ramps, reconstruction of an alley intersection and a cross gutter, replacement of traffic markings and detector loops, and the removal and replacement of concrete pavement at various locations

The engineer's estimate is approximately \$220,000 and the duration of construction is 60 working days.

Fiscal Impact:

No fiscal impact at this time.
