

May 3, 2005

Honorable Mayor and Members of
the Hermosa Beach City Council

Regular Meeting of
May 10, 2005

**REQUEST FROM THE ALARIS GROUP, LLP, ON BEHALF OF
AT&T WIRELESS SERVICES TO CONSIDER THE INSTALLATION OF A
SECOND CELLULAR ANTENNA ON ONE OF THE LIGHT POLES ON THE
3RD DECK OF THE
PARKING STRUCTURE**

Recommendation:

That the City Council allow The Alaris Group, LLC to file an application for a CUP on behalf of AT&T Wireless Services and direct staff to negotiate a lease for the siting of a cellular facility on the parking structure.

Background:

I have attached a proposal from The Alaris Group, LLC working on behalf of AT&T Wireless Services to locate a second antenna on a light pole on the 3rd deck and a small area on the 2nd deck about 200 square feet for the related cabinets and other equipment. The equipment is proposed to be located in the Northeast corner of the 2nd floor. This area would be enclosed and does not result in a loss of any parking. The plans attached provide details of the proposed installation.

The proposed installation requires a CUP and, before they can file such an application, they must have the authorization of the City Council as the property owner. The only question that is before the City Council now is whether or not you wish to allow the filing of an application before the Planning Commission. Negotiations concerning the lease rate and other terms and conditions would be handled in Closed Session should you wish to proceed.

Respectfully submitted,

Stephen R. Burrell
City Manager
