

June 6, 2006

Honorable Mayor and Members of  
The Hermosa Beach City Council

Regular meeting of  
June 13, 2006

## **AWARD BID FOR FIRE STATION FRONT RENOVATION PROJECT**

### **RECOMMENDATION**

Staff recommends that council:

1. Authorize the award to renovate the fire station front per fire department specifications to M3 Services Inc.

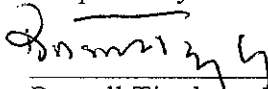

### **BACKGROUND**

The purpose of the renovation is to make hardscape and window improvements that are necessary both functionally and environmentally, along with improving the esthetics of the public city owned building. Project renovation improvements include, removing the tree in front of the building due to its root structure, which have broken and uplifted the surrounding concrete and building foundation, remove and replace broken and cracked fire apparatus driveway and public entry sidewalk, installation of a lateral drain and hydrocarbon filtration system to control fire apparatus contaminates from flowing into the street and into storm drains, installation of a new ADA compliant front door, store front style front windows, installation of an ADA compliant public drinking fountain, installation of a new park bench and night lighting system for front of the building. The fire department went out to sealed bid for this project and received two bids, \$78,974.00 from MJ Seitz Construction and \$51,131.00 from M3 Services Inc. The fire department request council to award the project to the lowest bidder, M3 Services Inc., 8616 La Tijeras Blvd., Los Angeles, California, for \$51,131.00. Once awarded, the project will be managed by the city Public Works department.

### **FISCAL IMPACT**

The funds required for the fire station front renovation project have been appropriated in account #180-8610-4201 for the fiscal year 2005/2006- "Install catch-all sump in apparatus floor, \$30,000, and "Replace front apparatus driveway and remove tree", \$20,000. Remaining balance of project cost will be taken from appropriated funds in account #180-8610-4201- "Repair leaking station roof", as that project has been revised and anticipated to cost less. The total cost is \$51,131.00.

Respectfully submitted,
