

EPAC Subcommittee meeting, Monday, September 24, 2007

The subcommittee met and following discussion is recommending the following categories as the first set of goals for the commission.

- Develop and complete an emergency readiness/preparedness assessment of the community. This will provide a framework for future actions by the commission.
- Develop a comprehensive ongoing public preparedness Awareness Campaign/Program
- Review and develop a comprehensive Communications Program. This would be all types of communications involving preparing and responding to an event. This would include integrating the Ham radio function into emergency communication procedures and protocols.
- School Emergency Planning- invite the school district to present their program and develop a open link of sharing ideas
- Develop an ongoing volunteer organizations plan. This would include Neighborhood Watch, CERT volunteer training; Ham radio operators club; Red Cross among others.
