

March 11, 2002

Honorable Chairman and Members of the
Hermosa Beach Public Works Commission

Regular Meeting of
March 20, 2002

**PROJECT NO. CIP 01-167 VARIOUS STREET IMPROVEMENTS
CONCRETE PAVEMENT REPAIR AT VARIOUS LOCATIONS**

Recommendation:

It is recommended that the Commission review and discuss the project.

Summary:

The 2001-2002 Capital Improvement Program Budget includes a project for the repair of potholes in the concrete pavement at various locations.

A number of residential concrete streets are in disrepair with large potholes and cracks. Although the potholes can be patched and repaired using asphaltic-paving materials, the residents object to the high contrast in colors.

Staff has identified more than \$119,000 in repair work. Please refer to Attachment 2. There is, however, only \$100,000 in the budget this year. Assuming a 10% contingency, the available funds for the proposed work is approximately \$90,900. Therefore, Staff is asking for the Commission's help in selecting those locations to receive work in this budget year.

Once the locations have been selected, construction documents will be prepared and the project will be put out to bid.
