

May 20, 2003

Honorable Chairman and Members of
the Hermosa Beach Public Works Commission

Regular Meeting of
May 28, 2003

**PROJECT NO. CIP 02-185 STREET IMPROVEMENTS – 5TH STREET
BETWEEN ARDMORE AVE. AND PROSPECT AVE.
PLAN REVIEW**

Recommendation:

It is recommended that the Commission review the attached plans and receive public comments.

Summary:

This project is approved for design in Fiscal Year 2002-2003 Capital Improvement Program budget to repair 5TH Street between Ardmore Avenue and Prospect Avenue. It had originally been approved as two projects, which were recently combined into a single project. The funding source for this project is the Capital Improvement Fund in the amount of \$216,800 for FY 2002-03 and \$212,000 is being requested for FY 2003-04. Construction is tentatively scheduled to begin in November 2003. The scope of work will involve the grinding and A/C overlay of existing PCC pavement and minor drainage corrections. It is necessary to prevent further deterioration of the concrete pavement.

At this time, Staff will receive comments and recommendations from residents and Commissioners, and incorporate them into the plans and specifications if appropriate. The final plans and specifications are near completion and should be ready for City Council approval in July 2003.

Fiscal Impact:

There is no fiscal impact at this time.

Attachment: Street Improvement Plans

Respectfully submitted,

Richard D. Morgan, P.E.
Director of Public Works/City Engineer
